Change input method of your phone by accessing into menu -> "Settings" -> "Personalization" -> "Input methods" -> choose the Input method and language you want.

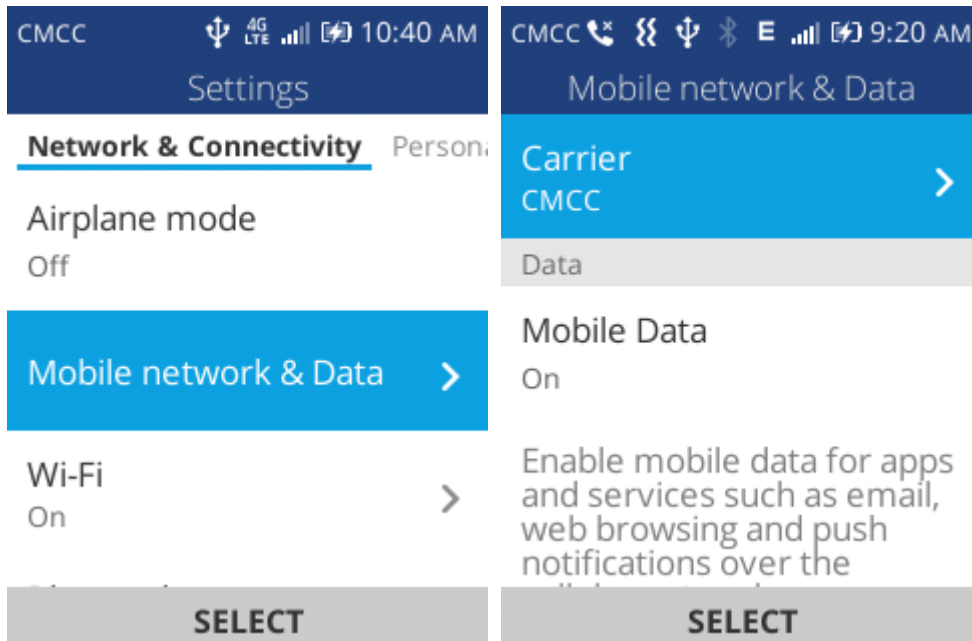

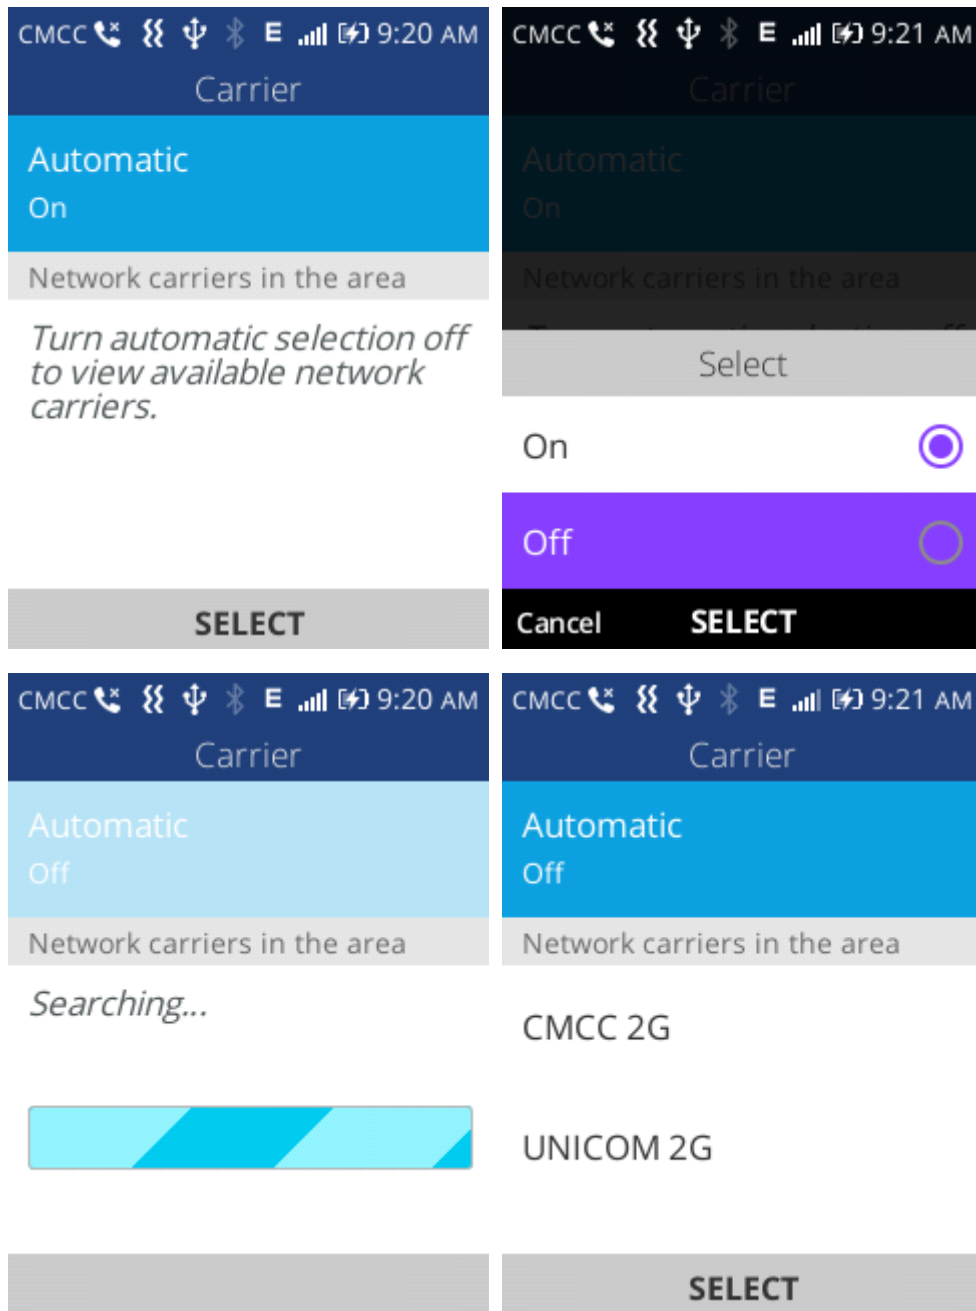

v. **Network & Connectivity**

23. How can I connect to a mobile network?

You can adjust mobile network settings by accessing into menu -> "Settings" -> "Network & Connectivity" -> "Mobile network & Data" -> "Carrier" -> "Automatic" -> Select "Off" -> It will search for the network carriers in the area and display them in the list -> Choose the network.

If you select "Automatic" -> "On", it will connect to a mobile network automatically.

24. How can I connect to a Wi-Fi networks?

Wi-Fi is a wireless networking technology that can provide internet access at distances of up to 100 meters, depending on the Wi-Fi router and your surroundings.

To use Wi-Fi, you need to connect to a wireless access point, or “hotspot”. Some hotspots are open and you can connect to them easily. But others implement security features which require more steps to set up, like, digital certifications, passwords or other ways to ensure that only authorized users can connect.

Turn on Wi-Fi by accessing into menu -> “Settings” -> “Network & Connectivity” -> “Wi-Fi” -> Select “On”, the device will scan for available networks -> Select “Available Networks” to see details.

*Secured networks are indicated with a lock icon.

*If the device finds a network that you connected to previously, it will connect to it.

- 1) Press up & down key to select a network name to see more details or connect to it.
- 2) Enter a password or other credentials to connect network.

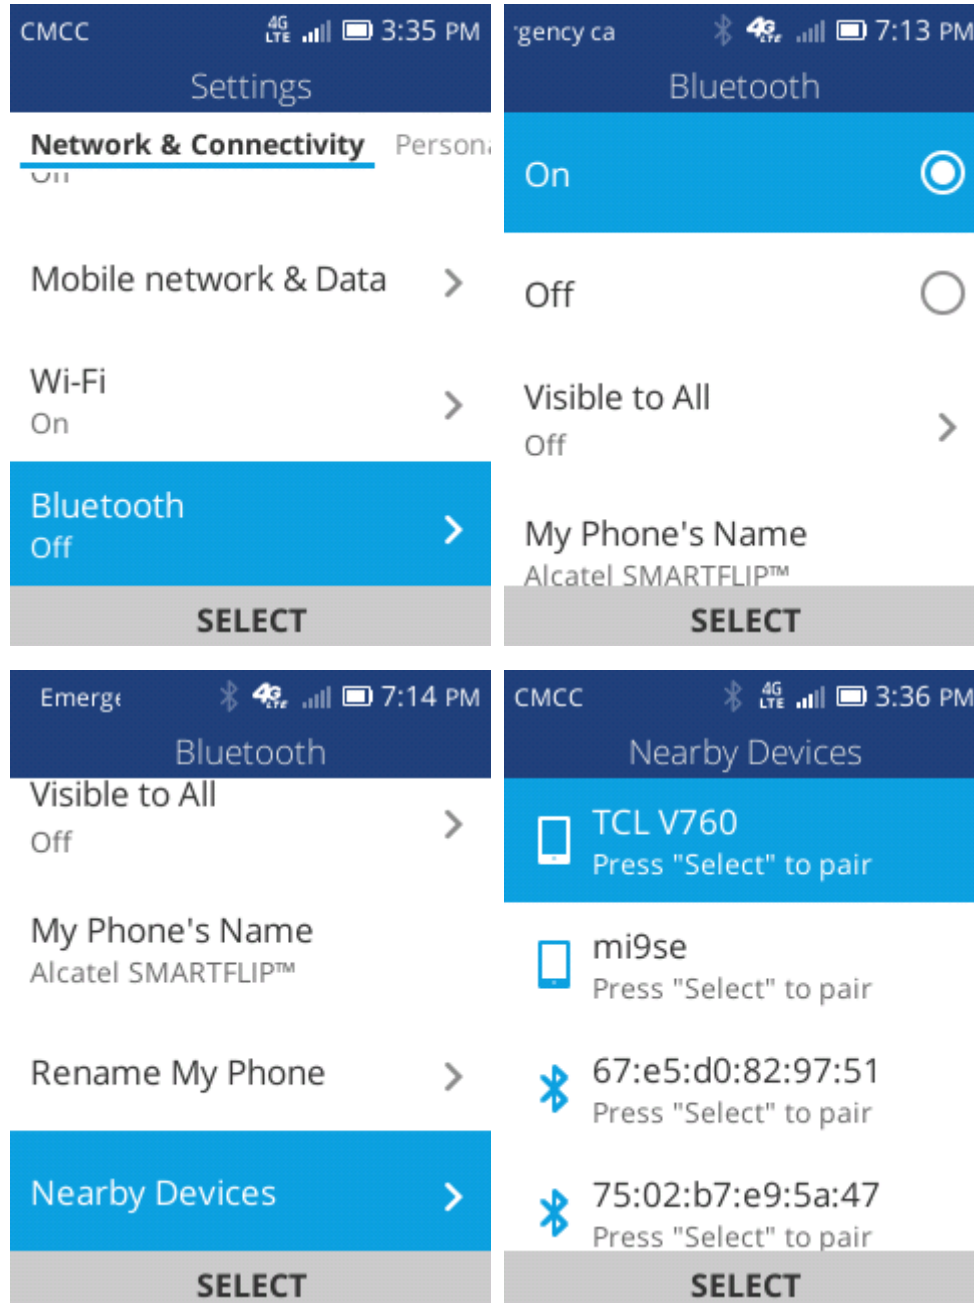

25. How can I turn on Bluetooth and pair with another Bluetooth device?

Bluetooth is a short-range wireless communications technology used to communicate between devices over a distance of about 8 meters.

To connect to a Bluetooth device, you must turn on your phone's Bluetooth radio. The first time you use a new Bluetooth device, you must pair it with the one you want to connect. Then both devices know how to connect securely to each other. After that, they connect automatically.

Turn on Bluetooth by accessing into menu -> "Settings" -> "Network & Connectivity" -> "Bluetooth".

- 1) Select "On" for searching the device.
- 2) The device will scan for available devices, select "Nearby Devices" to see details and select the device that you want to pair with.

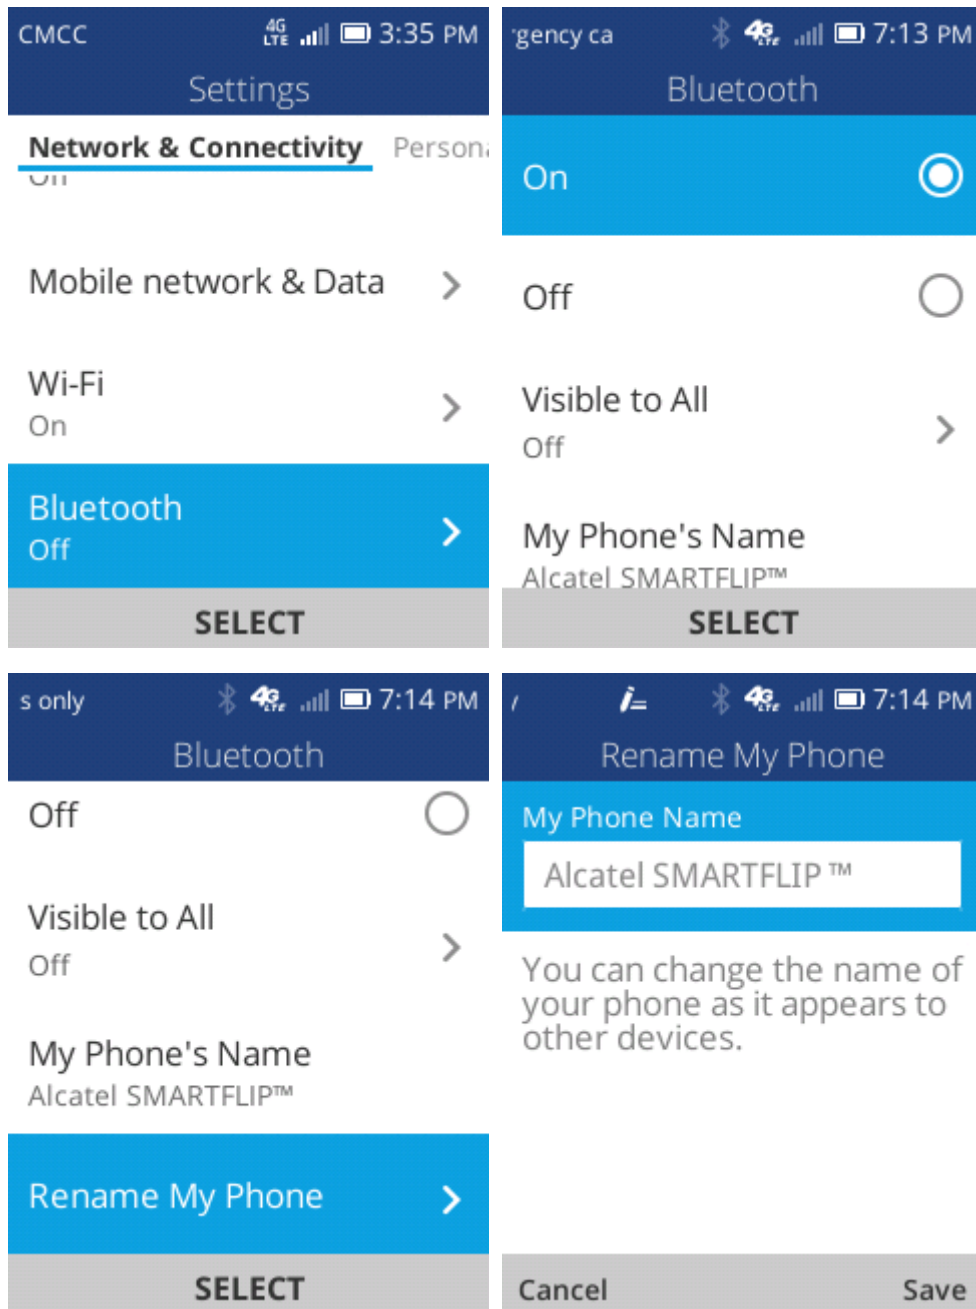

26. How can I change the name of my Bluetooth?

You can follow below steps to rename the Bluetooth.

Turn on Bluetooth by accessing into menu -> "Settings" -> "Network & Connectivity" -> "Bluetooth".

- 1) Select "On" for searching the device
- 2) Select "Rename My Phone", type the new phone name you want in the textbox and

press save.

vi. Camera

27. How can I take photos with camera?

Your Camera app is a combination of camera and camcorder.

You can follow below steps to take pictures and videos.

- 1) Open "Camera" app in menu.
- 2) Press "OK" to take a photo.

28. Where can I check my photos?

You can check your photos by visiting the Gallery app.
